ESCALATOR INDUSTRY

CHAINS • CHAIN PULLEYS • ROLLERS • AXES

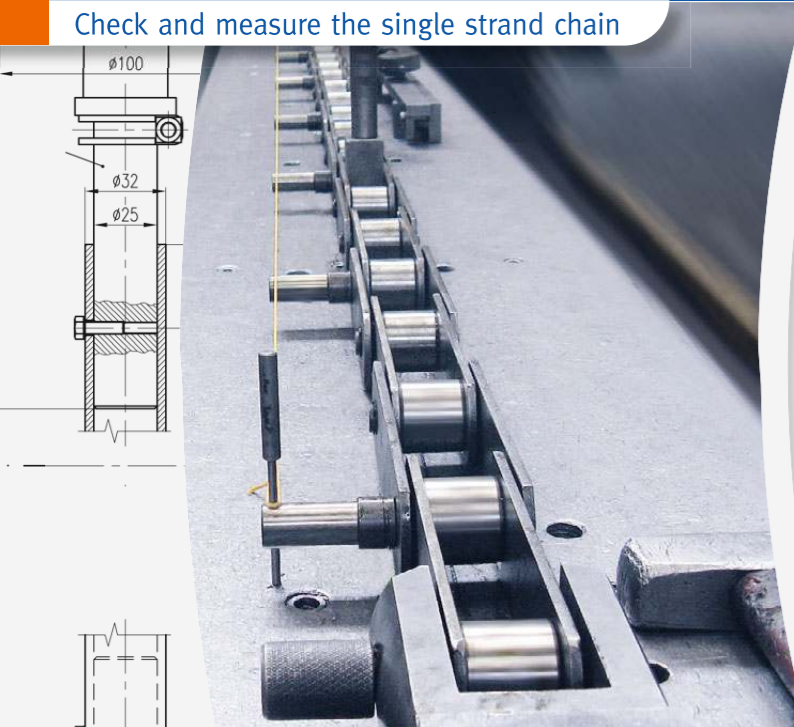

Pre-assembly 4 links

Single strand assembly with stepped bolts

Check and measure the single strand chain

Double strand assembly with rollers

Traffic escalator with mounted chain

AUFT was founded on January 1st, 2005. In idyllic Schmallenberg in Sauerland, solutions are developed for bushing conveyor chains, roller chains, special chains, chain pulleys and chain extension components.

Knowledge speaks on our behalf as our technically trained employees have more than 30 years of experience in the chain industry, guaranteeing quality and the best support.

We supply products to our customer's wishes and comprehensive service from quotation through acceptance.

AUFT - QUALITY THROUGH KNOW-HOW

CHAINS • SPROCKETS • ROLLERS • AXES

Our products are found in places where people, bulk or loose goods are efficiently transported and lifted, even under difficult conditions.

Our escalators and travelators are found in department stores and public transport sectors such as metros and airports.

Profit from our technical knowledge. We measure your conveying systems on-site, determine materials with appropriate heat treatments and corresponding dimensional tolerances. Together, we optimize products for your particular applications.

Our scope of delivery in the escalator industry comprises step chains, drive chains, escalator rollers and if required, corresponding chain pulleys and axes.

Our scope of delivery comprises the following products:

- Step chain
- Bushing conveyor chains according to DIN 8165 and DIN 8167
- Bushing conveyor chains to customer specifications
- Bushing chain according to DIN 8164
- Galle chains according to DIN 8150 and DIN 81511
- Draw bench chains and Galle chains to customer request
- Link plate chains according to DIN 8175 and DIN 8176
- Link plate chain to customer specifications
- Roller chains according to DIN 8187 and DIN 8188
- Custom roller chains with extensions
- Forged link chains
- Plate chains according to customer request
- Block chains
- other special chains according to customer request
- Chain pulleys for all chain types

Our products are also used in other sectors:

- Wood industry
- Hydraulic steel structures
- Automotive industry
- Bulk goods industry
- Steel industry
- Other industrial applications
